

Visitation Policy

We request that you call in advance to schedule a time for observing your student's class. We encourage you to be aware of their progress and you're welcome to take pictures & video at the time of your visit.

For our younger students, we fully understand that it may initially require a few classes of the parents observing before both are comfortable with the class and program. However, after a few visits, it is important to leave the student in the classroom by themselves. Our studio was established in 1935 and over those many years of teaching, we know that children learn their best without their parents in the classroom.

If you bring other children to class on your observation day, please be respectful of the teaching atmosphere and in control of their behavior.

Please contact Denise at 399.6245 if you have any questions.

Best Wishes & Happy Dancing!
